FIVE STAR ★★★★★

Pacifica has earned the U.S. government's highest front and side crash rating, Five Stars\*.

Pacifica is the first Chrysler vehicle to pass through the Chrysler Development System's Quality Gates, a series of high-standard checkpoints required for a vehicle to make it to the road. When the National Highway Traffic Safety Administration (NHTSA) put it through its paces, Pacifica received five stars, the government's highest rating for front and side-impact crash tests.

POWER LIFTGATE

Keep your mind open to new possibilities. Pacifica's power liftgate, standard on Limited and available on Touring, opens and closes at the touch of a button found on both the key fob and the overhead console. To ensure safety, obstruction sensors automatically reverse direction if something impedes closing or opening.

ALL-WHEEL DRIVE

You can't control the weather, but you can anticipate it. For ice, snow, and slick roads, Pacifica's available all-wheel drive (AWD) system provides better forward traction. The system transfers power from the front wheels to the rear to help keep the car safely on the road.

AIR BAGS

With Pacifica, every passenger has additional protection in the event of a collision with passive safety features that include:

- Advanced multistage driver and front-passenger air bags\*
- Inflatable knee blocker\* for the driver
- Supplemental side-curtain air bags\*

\*Always sit properly in the seat with the seat belt fastened.

For more information, please visit [www.chrysler.com/pacifica](http://www.chrysler.com/pacifica)

## SOUND AND VIDEO

- Pacifica comes with a standard AM/FM radio with CD player, seven Infinity® speakers, 200-watt amplifier, and steering wheel-mounted audio controls.
- Limited features an AM/FM radio and six-disc in-dash CD/DVD player able to play MP3, DVD audio, DVD video, DVD-R and DVD-RW discs.
- Touring and Limited models offer an available eight-speaker Infinity® Intermezzo™ 5.1 Digital Surround Sound system with subwoofer, powered by a 385-watt digital amplifier.
- A Rear Seat Video™ system, available on Touring and Limited, enables rear-seat passengers to enjoy CDs or DVDs through wireless headphones; front-seat occupants can listen to the radio or in-dash CD player.
- A Low-cost Rear Video System™ without headphones or dual media capability is optional on Pacifica base models.

Infinity is a registered trademark of Harmon International Industries, Intl

## CARGO AND SEATING

- The second- and third-row seats on Touring and Limited fold flat to give you 79.5 cubic feet of cargo area.
- The 65/35-split folding second-row on the base model can seat five passengers or a combination of cargo and passengers for the versatility you need.
- The available Cargo Convenience Group includes tonneau cover, cargo net, adjustable roof-rail crossbars, and rear fascia step/scuff pad.

## AUTO-STICK

Pacifica follows no one. It's the only sports tourer with the standard AutoStick® transaxle powering either a 4.0-liter V6 SOCH with 6-speed transmission or 3.8-liter V6 OHV 4 speed AutoStick® that gives you the performance of a manual transmission and combines it with the carefree driving of an automatic, allowing you to stay ahead of the curve.

## MEMORY SYSTEMS

Pacifica remembers your preferences: driver's seat, outside mirrors, pedals, and radio station presets can be set and stored for two drivers (available on Touring, standard on Limited). The standard remote keyless entry transmitter or available memory seat buttons (shown at right) on the driver's door panel can be used to set and recall preferences.

## TEMPERATURE CONTROL

Pacifica features dual-zone automatic temperature control (ATC) standard on Touring and Limited, and dual-zone manual temperature control standard on Pacifica.
